

OLHA MITSYUK

PROFESSIONAL SUMMARY

Dynamic Front-End Developer with two years of hands-on experience in website development, user interface architecture, and responsive design. Proficient in HTML5, CSS3, JavaScript, with expertise in React and Svelte frameworks for Single Page Applications (SPA). Currently pursuing Level 4-5 Full Stack Development certification. Experienced in Agile methodologies, Git version control, REST API integration, and Node.js ecosystem. Actively serve as a Tech Angel volunteer, providing digital skills support to help disabled people build confidence with technology. Advanced English proficiency (C1) and permitted to work in the UK.

WORK HISTORY

Front-End Developer, 07/2022 to 06/2024

Tech.Band - Remote

- Architected and developed 4 client-side applications from ground up using React.JS, TypeScript, Svelte and modern ES6+ features
- Crafted 50+ pixel-perfect UI components from Figma designs, delivering 98% design accuracy
- Designed 30+ dynamic, reusable components, slashing code duplication by 40%
- Integrated RESTful APIs and handled client-side data processing and state management
- Implemented secure authentication flows including login, authorization, password recovery, and PIN code functionality
- Pioneered 8 interactive data visualisation features using Chart JS, boosting data comprehension by 35%
- Collaborated closely with backend developers to define and consume API endpoints
- Collaborated with UX and UI designers to implement design changes.
- Participated in code reviews and maintained high code quality standards

Design and development engineer, 01/2009 to 02/2022

State Enterprise “Research & Production Complex of Gas Turbine

Industry “Zorya”-“Mashproekt” - Mykolayiv, Ukraine

- Generated 200+ comprehensive design documents and engineered 150+ 3D models with 99.9% accuracy
- Optimised 50+ existing components, boosting performance by 35% and delivering 12 new design solutions
- Spearheaded collaboration with 4 production departments, streamlining manufacturing processes and revamping documentation flows
